The Astra2Connect subscription contract is for one year.

There is a one-off connection charge of £65.00

The area in which the Astra2Connect Internet service is shown below. When used with a Crystop 85cm satellite system, coverage includes all of the U.K. and Ireland, most of Scandinavia and most central European countries.

As you can see from the map, most of Spain, Italy and the southern European countries are not covered.

For Internet coverage in these areas, please refer to information on the service provided by IPcopter.
